

Boiler & Turbine Solutions Plant Assessment

A service to enable performance improvement
and reduce production costs

Highlight Features

- Enhance **production efficiency**
- **Reduce operating costs**
- **Strategic planning** for cost-saving projects
- In-depth data analysis for **optimization**

Benefit

- In-depth on-site survey and **data analysis**
- **Actionable solutions** for better efficiency
- Concise, **ready-to-implement reports**
- **Experienced** steam and power systems experts

Smart
Industrial Solutions

 **Mr. Thitipat Charoenkitsupat (Ball)**
Sales Engineer

Boiler & Turbine Solutions Diagnostic and Troubleshooting

A solutions to solve plant's performance and stability to steam and power system

Boiler Slagging

Boiler Long-Term Overheat Tube Leakage

Turbine Deposit

Turbine Blade Erosion

Highlight Features

- Inspection with **root cause analysis**
- **Specialized team** for precise problem detection
- Evaluation with continuous **performance monitoring**
- **Advanced software** for predictive analysis and decision-making

Benefit

- **Identify root causes**
- **Provide targeted solutions**
- **Improve reliability**
- **Reduce costs**
